Student Charette

Closing Date : 31 May 2007

The Topic

Envisioning D'Eden

Brief

A charette is proposed for all design students and the program will be led by En. Nasir Baharudin (a local artist and senior lecture at Architecture Department, UPM) and a landscape architect (to be named). In the charette, the students will be asked to design an environmental art piece with Janda Baik as a context. Janda Baik is being chosen a context because of its charm and serene environment but its beauty has been threaten by rapid development and social changes. The participants will tour Janda Baik and later defined the problems faced by Janda Baik. The participants will be asked to represent the solution of the problem in the form of environmental art. It is suggested that participants of the charette will be allowed to attend the conference at special rate.

Date: 24 – 26 August 2007
Venue: D-Ark Resort, Janda Baik, Pahang
Venue Website : <http://www.d-arkresort.com/>
